

## Effective Energy Generation and Conversion Systems

at Choksi Hall, IISc, Bangalore

A three day Training Program on "Effective Energy Generation and Conversion Systems" was organized at Indian Institute of Science (IISc), Bangalore between 20th and 22nd November 2006.

The Training Program addressed on recent trends in Energy demands, evaluation of energy based on Life Cycle Assessment, Technologies for applications of renewable energies such as Photovoltaic Generation Systems, Hydro, Wind, Micro Turbines, Fuel Cells, Biomass, Bio-Diesel etc.

The program was jointly organized by the Association for Overseas Technical Scholarship (AOTS) and implemented by EBARA of Japan, Indian Institute of Science (CGPL), Bangalore and Kirloskar Brothers, Pune.

The number of participants was 30, represented by consultants, industrialists, researchers, educators and entrepreneurs.

The Key Note Speaker was Prof. Rangan Banerjee - ITI Mumbai, and other speakers were Prof. Udupi Srinivasa - Mechanical Engineering, IISc, Prof. P. J. Paul - IISc (CGPL), Dr. k. Kawaguchi and Mr. T. Kasahara of EBARA Corporation, Japan.
